Kraków

I completed a five-year degree in Architecture and Design at the Academy of Fine Arts in Gdańsk, which gave me a solid foundation for my creative work. I have 8 months of experience as a UX/UI Designer, during which I worked on several applications, landing pages and the Websys system. Additionally, I spent two years at the SIKORA INTERIORS design office in Gdańsk as an interior designer. There I gained valuable experience in project management, client cooperation and teamwork.

English - A2/B1
Polish - Native
